SUBJECT INDEX

	Page
Abstracts	
machine-generated	141
Acceleration	175
Acoustic noise	163
Acoustical environment	18
Aerodynamics	
of man	89
Air blast	85
Aircraft noise	18
Anthropometry	
dynamic	147
Attitude displays (flight)	14
Authors	46, 104, 000
Blast	171, 235
air	85
Book Reviews	
Psychology and Human Performance by Robert M. Gagné and Edwin A. Fleishman	44
Centrifuge	176
Collisions	
automobile	186
Damping (stick control)	17
Dark adaptation	109
Decompression	84
Depth control (submarine)	70
depth keeping	72
depth seeking	72
Disorientation	
from air blast	89
Displays	
attitude (flight)	14
complex	51
contact analog	70
estimates of centers	211
radar	28
resolution of	56
size of	56
Drag forces	85, 89
Editorials	49, 107
Ejections	176
Electronic countermeasures	128
Electronics	9
Films	
on human factors	62
Group learning	92
Hand tools	156
volumetric requirements	156
High altitude	
effects on vision	76
Highway design	1
Human engineering	
historical note	169
Human factors	
in electronics	9
films	62
Impulses	
manual application of	221
Indicator	
moving scale	34
Intelligibility	25
Interaction	
of acceleration and performance	180
Judgment	1
Learning	
group	92
Letters to the Editor	
Comments on Speech Interference Level	97
Discussion of Speech Interference Level	99
Authors' Responses	100
Maintenance requirements	156
Masking (acoustic)	20, 23
Mathematical model	
traffic flow	3
Motion	
effects on vision	76
Motion pictures	
on human factors	62
Noise	
acoustic	163
aircraft	18
Operation	
highway	1
Pedal pressure	152
Perception	1
Performance	
as a function of practice	58
driver	1
motor	175
of pilot in aircraft	178
of pilot in spacecraft	178
system	128
Pitch angle	15
Population stereotype	35
for moving-scale indicator	35
Practice effects	57
Radar	
displays	29
target recognition	51
Radiation	
effects on vision	80
Recognition	
of target	51
visual	51
